

Jacob-Wolf Creek  
Well  
Info.

**INVENTORY OF WATER WELLS WITHIN GILLESPIE COUNTY**  
 Prepared by the  
 Hill Country Underground Water Conservation District

The bulk of the wells included in the below report are wells that have been drilled after the mid 1960's when the State began the requirement that driller logs be kept on all wells. The wells have been assigned well code numbers with different prefixes. The wells are sorted alphabetically based on the owner's name. This is the name that appears on the drillers log at the time the well was drilled. The District makes no warranties or representation whatsoever regarding the content, completeness, accuracy or adequacy of the following information and data.

- "A-" prefix are wells drilled after March of 1989 that have been plugged.
- "BR-" prefix are wells drilled prior to 1989 before the District began well permitting and registering.
- "GC-", "GI-", and "GM-" prefixes are grandfathered permitted wells (commercial, irrigation and municipal wells).
- "GCL-" and "GIL-" prefixes are grandfathered permitted wells and permitted wells for lawn irrigation systems.
- "KK-" and "OL-" prefixes are wells drilled prior to the mid 1960's before the State began requiring the drillers provide logs on the well or on wells that we were not able to associate a drillers log too.
- "M-" prefix are monitor wells.
- "P-" prefix are permitted wells drilled after March of 1989, but were not grandfathered when the District adopted new rules on November 9, 1999.
- "PC-", "PCL-", "PL-", "PLI-", and "PM-" are permitted wells that were approved by the Board after November 9, 1999.
- "PL-" prefix are permitted wells for lawn irrigation systems that were approved after March 19, 2002.
- "R-" prefix are registered wells drilled after March of 1989 when registering by the District began.
